

MOUTHBLOWN

All our glass products, MT Selection as well as Double Bend, are mouth blown in accordance with European glassblowing traditions. Each glass is individually handcrafted based on MARKTHOMAS proprietary glass designs.

LEAD FREE CRYSTAL

All our products are produced from the finest, high quality lead-free crystal and therefore withstand clouding. Our glasses are dishwasher safe and are successfully used in high frequency establishments such as restaurants, hotels and wine bars around the world.

DESIGN

Careful consideration has been given to the design of each MARKTHOMAS glass. To create an elevated tasting experience was the ultimate objective while appealing to the visual senses in each glass design and creating aesthetically pleasing, architecturally sculptured stemware.

HISTORY

Still today artists in the glassmaking trade draw on the century-spanning, Continental European experience and craftsmanship to manufacture luxury stemware.

TESTIMONIALS

"I have been using the Allround Double Bend glass by MARKTHOMAS for over six months and I must say that I am extremely satisfied with both the quality, price and the impact on our guests. This particular glass offers a unique shape which gives the wine immediate aeration and makes it stand out from other competitors."

I look forward to enjoying future glassware made by the innovative MARKTHOMAS brand."

Clement Robert
UK Sommelier of the Year 2013
Head Sommelier Medlar Restaurant
London

"Double Bend from MARKTHOMAS is the most innovative wine glass shape I have seen in many years. It creates an eye-catching tool for wine, made from fine mouth blown glass, that is strong, light and the champion of flavour."

Daniel Primack
General Manager Around Wine
London

"We are impressed by the innovative design and quality that MARKTHOMAS delivers, 'Double Bend Allround' is well received in the Asia market since launched."

Kevin Li
Chief Sommelier Schmidt Vinothek
